For Immediate Release

CHICAGO, Illinois—December 15, 2010

HDMS Announces the Release of HDMS Executive Briefcase

Health Data & Management Solutions, Inc. (HDMSSM) announces the release of HDMS Executive BriefcaseSM, an intuitive interface using a question and answer format to respond quickly to questions regarding overall health plan performance. Executive Briefcase can be customized to access data and produce information on any dimension of performance that senior executives feel is critical to the company's bottom line.

The Executive Briefcase Q&A format allows instant access to tables and graphs that can monitor trends, identify problem areas, and measure the results of cost containing initiatives. Questions can be programmed in such areas as plan cost indicators, finance, providers, utilization, quality, pharmacy, and clinical programs. Answers can be as broad and/or deep as needed for effective decision making. Executive Briefcase queries a subset of existing DARTSM measures and dimensions with links to DART for further drill down and detailed analysis.

About HDMS

Health Data & Management Solutions, Inc. (HDMS) is a software development company offering data warehouse, management and analysis tools for the healthcare industry.
