

CATAPULTSM

Report Scheduling
and Delivery

Deliver Key Performance Reports Automatically

HDMS CatapultSM is the next generation of extensive interactive reporting capabilities. Catapult is the perfect complement to users that require a standard set of reports to be scheduled, generated, and delivered automatically to all key constituents.

This distributed reporting solution addresses the full spectrum of report generation and delivery requirements—from basic metrics reporting to parameter-driven reporting.

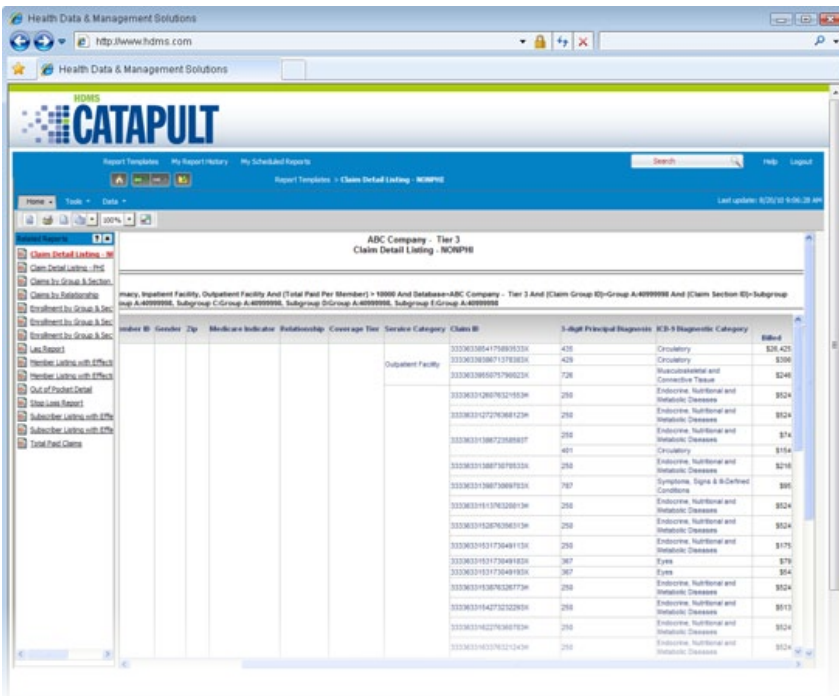

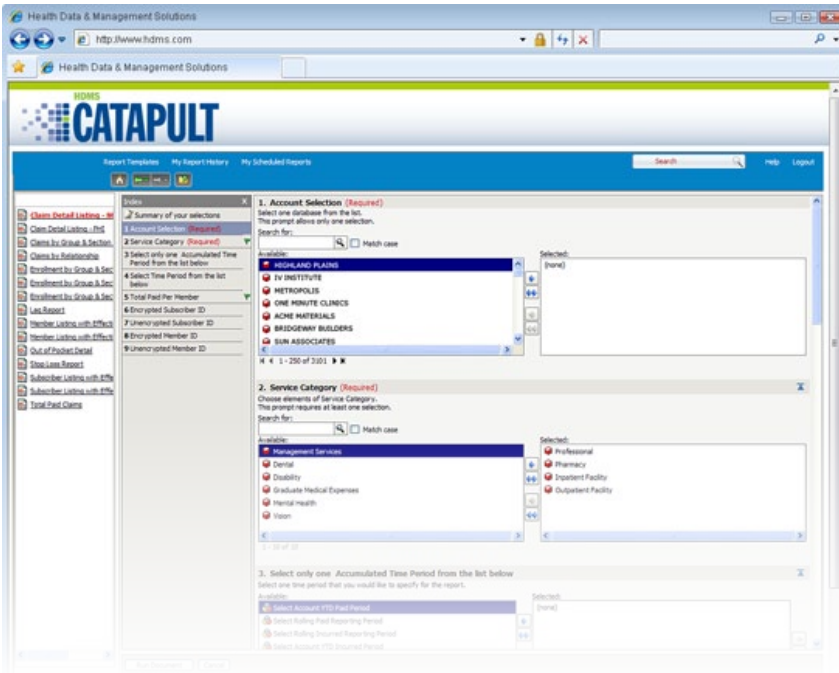

Report	Name	Owner	Modified	Description	Actions
Report Templates					
	Clinic Detail Lookup - SCDPH	Administrator	8/13/10 11:40:10 PM		
	Clinic Detail Lookup - PH	Administrator	8/13/10 11:40:10 PM

	Total Paid Claims	Administrator	8/13/10 11:40:08 PM		

Benefits of Catapult include:

- Schedule reports to automatically generate on a recurring basis.
- Generate multiple and large reports on-demand.
- Apply parameters to generate Arrow targeted reports, which include selected chapters, customized date ranges, and data subsets.
- Schedule “flash” reports delivering timely information ahead of the DART database update.
- Generate and automatically deliver standard reports with parameter-driven capabilities to key constituents.
