

Industry-leading Health Data Intelligence Solution

HDMS developed DARTSM (Data Analysis and Reporting Tool) to provide employers and health plans with historical, current, and predictive views of their health data for decision support.

DART does this by consolidating and integrating key health data into a dedicated database, which includes world-class reporting tools.

DART's advanced technology enables user-friendly online reporting, analytical processing, data mining, plan performance management, benchmarking, and predictive analytics.

For Health Plans

DART is the industry-leading health data intelligence and decision-support solution for employer health benefits plans. Major health plans already recognize its value and incorporate DART into their employer client services.

For Employers

HDMS partners with employers to turn their health care data into intelligence through DART. HDMS creates a DART database that consolidates data from multiple sources to meet the company's health plan analysis needs. Included with DART are powerful, web-based reporting and analysis tools that provides intelligence for decision support.

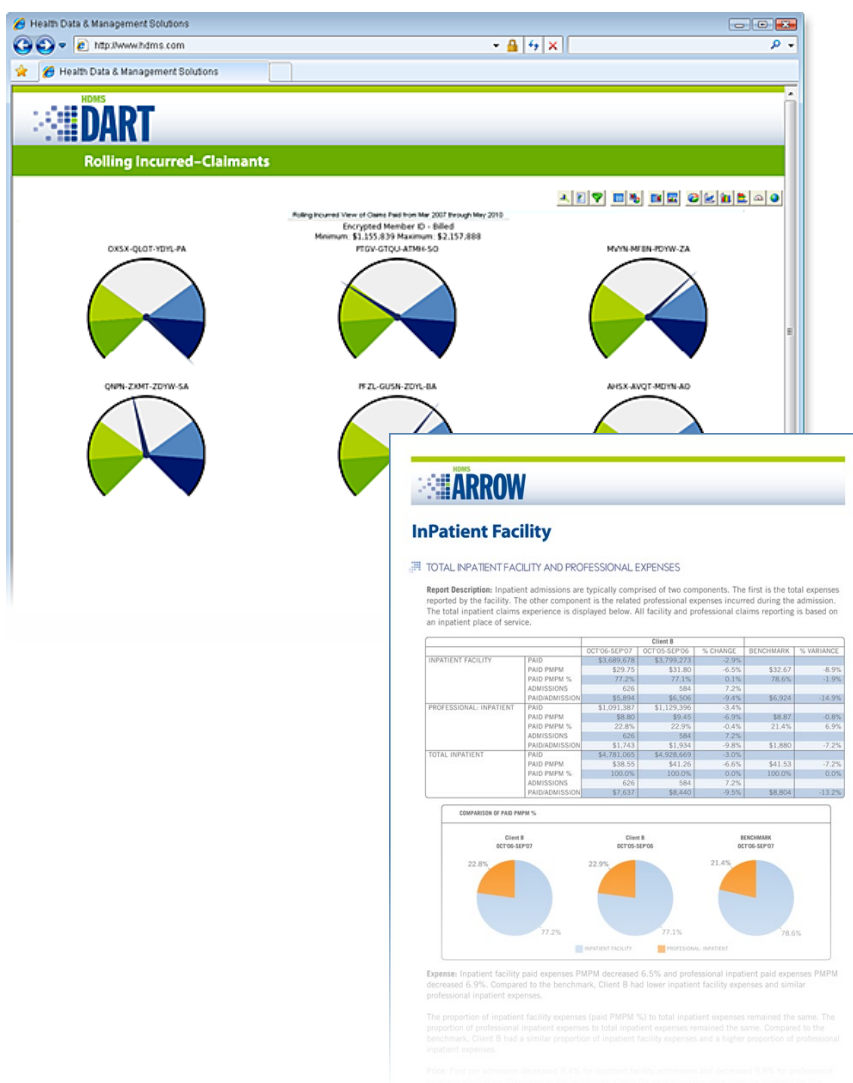

DART and Consultants

Benefits consulting firm services can be vital to the success of employer health plans with their knowledge resources, health care industry experience, and plan development and management expertise. Consultants know that the best information produces the best decisions. That's why many of them embrace the powerful intelligence delivered from the DARTSM health data and management solution.

HDMS also provides a suite of optional reporting and analysis software, as well as analytic consulting services, to help managers better understand and act on the intelligence gained from their health data.

With DART, managers can make more informed decisions, rigorously evaluate company health benefits plans, and support business decision making. It's never been easier to spot, dig out, and analyze key health plan metrics to save money and increase plan effectiveness. That's the beauty of DART.
