

## Strategic Presentations for various audiences

### Build once, use many times

Create simplicity and efficiency in reporting. Build analytic content once and use in multiple ways. Synergize analytic content across live dashboards with ready-to-go presentations.

HDMS Enlight® Presentation Ready Report feature produces compelling and robust reports using the same analytic content and calculations available within the interactive platform. Streamline operational and maintenance processes using the powerful design options that meet more reporting needs with fewer reports.

## Sophisticated Analytic Content, Simple Scheduled Reports

### PPT or PDF

Choose from PowerPoint or PDF outputs. Use corporate templates or your own stylized templates.

### Sharp and easily consumable

Robust reports, annual reviews and turn-key analytics are a critical part of business deliverables, account management, and strategic client engagements.

Present answers in deliverables that impress today's toughest critic – you!

### Change is expected

Fluidly align reports with your ever-changing requirements. Adapting reports is easier than ever with simplified technology supporting the process.

## » Why use Presentation Ready Reports?

Define reports, styling, filters. Schedule jobs to run and deliver reports in custom templates. Present engaging report content and use online interactive dashboards for a strategic delivery and your own special touch. Here's how others are using this feature set:

**Standard reports:** A Screening program uses this feature to deliver a member-centric report and aggregated results for employers, to complement their health service.

**Comprehensive Annual Reviews:** A third-party administrator manages plan performance reporting using a small number of templates despite unique plan sponsor requirements.

**Presentations:** Consultants include recommendations or action plans along with supporting data visualizations. An advisory firm runs strategic workshops with online interactive dashboards. Participants have a supplemental printed workbook.

**Executive updates:** A large self-funded plan sponsor distributes PDF files communicating quarterly updates for the Total Rewards and well-being program costs, performance, and engagement for each corporate and regional office.

# Deliver polished reports with simplicity and ease

## Robust ready-made content

Use Presentation Ready Report enabled content in a styled report. This includes:

- Key Performance Indicators
- Demographics and Utilization
- Site of Care and Non-Emergent ER
- Avoidable Inpatient Admissions
- High-Cost Claimants
- Chronic Care
- Pharmacy and Specialty Pharmacy
- Infusion Therapy
- Key Takeaways
- Glossary of Terms

Organizations also have unique analytic content that supports complex business requirements. Incorporate these dashboards and stories into presentation ready reports by working with account teams.

## >> Easy and Efficient: Flexible Time

Flexible Time offers powerful functionality for report design.

Users may select options like Rolling 12 months, Calendar 12 months, Calendar YTD, Plan 12 months, Plan YTD, and define the run out (lag).

Alternatively, users may create a custom time period. This aligns data trends with program specific requirements and provides precision analytics. For instance, look at mammogram utilization for the past 27 months at any point in the year or investigate HEDIS screenings with a very specific lookback.

## >> Get Started

Let your account team help you:

1. Analytic content is built and tested. Once approved, it is made available for reporting.
2. Style templates are uploaded. These styles are then available for multi-use.
3. The Presentation Ready wizard allows a user to identify the desired combination of content, time and filter criteria, style templates and distribution criteria to be defined into a scheduled job.

## >> Report customization features:

### Output options

PowerPoint  
PDF

### Filters

Add data filters (*can be customized based on your data*)  
One report design fills many needs

### Define time

Access the complete functionality of flexible time to tailor reports to meet complex requirements.

### Deliver with style

Drop into one or more style templates for polish and brand consistency
